

"THE DEVIL IN ME" from "Dark Amber (2017)

**There's a voice in my head trying to make me understand
Who I really am
Think it twice do it right you said everything's gonna be alright
Keep your fucking lies**

**I think my word I think my word
I think my word is set on fire
I think my word I think my word
I think my word is dying**

**Will you stay ? Will you pray ?
I'm not so evil I'm just the devil**

**Open your eyes when the sun goes down
And be sure I'm always around
Don't be scared don't look afraid
I just want a place in your head**

**The devil in me The devil in me The devil in me
I think it's the devil the devil the devil the devil in me**

**Used to be nice but something ain't right
We 're gonna find it out when you are tied
I feel so well I'm dressed so well
C'mon my baby let's do it again**

**I think my word I think my word
I think my word is set on fire
I think my word I think my word
I think my word is dying**

**Will you stay ? Will you pray ?
I'm not so evil I'm just the devil**

**Open your eyes when the sun goes down
And be sure I'm always around
Don't be scared don't look afraid
I just want a place in your head**

**The devil in me The devil in me The devil in me
I think it's the devil the devil the devil the devil in me**

**The devil in me The devil in me The devil in me
I think it's the devil the devil the devil the devil in me**

"SHE'S COMING" from "Dark Amber" (2017)

**Let me tell you a dirty story where no one gets back alive
Just a matter of life and death and again I will survive**

**But they never came alive
Never came alive
But they never came alive
Never came alive**

**Death 's coming soon
And I know my way
Yes I Know my way**

**She's Coming She's Coming She's Coming
She's Coming to take my soul away**

**Let me change my pain and I will be damned
I just want to survive Give me one more time
One more time**

**Yes I know I'll go in Hell but I want to breath again
Just another day another hour, living trough the flames**

**But they never came alive
Never came alive
But they never came alive
Never came alive**

**Death 's coming soon
And I know my way
Yes I Know my way**

**She's Coming She's Coming She's Coming
She's Coming to take my soul away**

**Let me change my pain and I will be damned
I just want to survive Give me one more time
One more time**

**Death 's coming soon
And I know my way
Yes I Know my way**

**She's Coming She's Coming She's Coming
She's Coming to take my soul away**

**Let me change my pain and I will be damned
I just want to survive Give me one more time

"THE HIGHWAY GLORY" from "Dark Amber" (2017)

**Here I am
Cursed and damned
I see the sky with another way
Since I took this road today**

**To go nowhere
To see if I dare
I took the only road I know
To get back on the show**

**The Highway Glory got a long to tell
One thousand ways to go in Hell
I drive alone on the Highway now
Will you tell me where I have to go ?**

**On the Highway On the Highway
On the Highway On the Highway
On the Highway On the Highway
On the Highway On the Highway
Glory**

**Grey sun
No highway station
I've put more than I ever had following this dirty white line**

**And I drive
And I drive
I can't stop my mine
I can't close my eyes**

**The Highway Glory got a long to tell
One thousand ways to go in Hell
I drive alone on the Highway now
Will you tell me where I have to go ?**

**On the Highway On the Highway
On the Highway On the Highway
On the Highway On the Highway
On the Highway On the Highway
Glory**

**The Highway Glory got a long to tell
One thousand ways to go in Hell
I drive alone on the Highway now
Will you tell me where I have to go ?**

"BURN" from "Dark Amber" (2017)

**Burn baby burn 'till your goodness goes down
I want to see your heart hit the ground
Burn baby burn 'till your madness slows down
I need to see your tears on my crown**

**Fire's walking & Fire's rising
I like to see the flames I like to see them dancing when
Fire's walking & Fire's rising
Three witches whispered to my hears but I can't hear them**

**Now you and me are dancing now in the same way
Now you and me are dancing now insanity's way**

**Burn Burn Burn Burn
Burn Burn Burn Burn**

**Burn baby burn 'till your body falls down
And vanished in the air away from my kingdown
Burn baby burn 'till your blue eyes shut down
I want to see your soul dirty as mine**

**Fire's walking and Fire's rising
I can feel dusk cooling cooling my painfull back
Fire's walking and my Fire's rising
Come on my baby just give me oh give me some more**

**Now you and me are dancing now in the same way
Now you and me are dancing now insanity's way**

**Burn Burn Burn Burn
Burn Burn Burn Burn**

**Burn Burn Burn Burn
Burn Burn Burn Burn**
