

"Downtown" from "Wilderness" (2020)

**Feeling so good in my rusty shell
Behing my wheel I'm drinving like hell
Nothing's better than a noce burn out
I drive my baby that's what it's all about
This place is mine and I keep for myself
A smell of lust with a smell of death**

**Feeling so good when the night goes down
I hope my darling you're somewhere around
I took my riffle in emergency's case
You know the start not the end of a race
Sometimes you feel like a movie star
Killer, gambler, no matter who you are**

**Welcome to the downtown
Everyone's cool around
Welcome to the downtown
You know I hold a crown**

**Welcome to the downtown
Everyone's cool around
Welcome to the downtown
You know I hold a crown**

"Wilderness" from "Wilderness" (2020)

**Can you it calling?
It's a lure from the wind
Always been inside you
Always under your skin**

**I'am I'am
The beginning of everything
I'am I'am
The end of it all**

**You will need to leave behind
All your love, all your mainkind
Leave behind your loneliness
And fall into the wilderness
Just follow my way
Let the beast replace yourself**

**The moon and the sky
Are your fellows now
You don't remember why
Why you had to go**

**I'am I'am
The beginning of everything
I'am I'am
The end of it all**

**You will need to leave behind
All your love, all your mainkind
Leave behind your loneliness
And fall into the wilderness
Just follow my way
Let the beast replace yourself**

"Fire And Hate" from "Wilderness" (2020)

**C'mon honey watch your fire
Cool your mind, watch out your desire
Your life's running at the speed of light
No time no count, no time to fight
Your engine always ask for more
Your still waiting to leave the shore**

**We are fight!
We are night!
Unchain the devil in you tonight!
We are hate!
We are fate!
We are made of fire and hate!**

**You close your eyes but still you see
The beast in me is always hungry
I need to feed him whit all I can
You become nuts, a twisted man
A long time ago I've letf the shore
Let me show you so much more**

**We are fight!
We are night!
Unchain the devil in you tonight!
We are hate!
We are fate!
We are made of fire and hate!**

**We are fight!
We are night!
Unchain the devil in you tonight!
We are hate!
We are fate!
We are made of fire and hate!**

"Redemption Day" from "Wilderness" (2020)

**On and on I'm building my own city
Hoping I could always be free
And I now I've got to sing there's something eating me
Not the worms, not the rust, I do regretfully
I do regretfully**

**And I'm waiting alone
For redemption day
For redemption day
And I'm waiting alone
For redemption day
For redemption day**

**On and an I'm making my own ashes
Hoping I could fulfill my own ditches
Empty streets and empty stores, riders at my doors
Here it comes, Here it comes, I drift to another shore
I drift away**

**Hey Hey
I'm making up my day
Hey Hey
Until the redemption day
Hey Hey
I'm just making my way
Hey Hey
Until the redemption day**

**And I'm waiting alone
The dust has fallen covering the town
I turned so cold
Did I really loose control
And I'm waiting alone
To feel the redemption beyond the stone**

"Roll Your Dice" from "Wilderness"

**Roll Roll Roll your dice
Everyday of your boring life
Spice up your quiet night
Bet your soul and do it right**

**Roll Roll Roll your dice
Close your eyes and win the price
It's not about Heaven or Hell
Hold them up and launch your spell**

**And I burn your home
And I burn your home**

**I am bad luck
I am bad news
Snake eyes and die
Just do it twice
Over and Over
Let's just roll your dice**

**Roll Roll Roll your dice
Any turn it's win or die
Call your luck and kiss her good
Make them sure they've understood**

**Roll Roll Roll your dice
Close your eyes and win the price
It's not about Heaven or Hell
Hold them up and launch your spell**

**And I burn your home
And I burn your home**

**I am bad luck
I am bad news
Snake eyes and die
Just do it twice
Over and Over
Let's just roll your dice**

"Dust and Sand" from "Wilderness"

**You listening my symphony
Just calm yourself and let it be
I'm crushing down reality
I'm shaping everything you see**

**Nothing here can save your world
Die Die**

**Nothing here can save your world
Die Die**

Nothing here can save yourself

Die Die Die

Save your world

**Kill yourself save the beast you're living on
I am dust and sand**

**Your sanity belongs to me
It's up to you to set it free
Look at your world you loose yourself
Open your eyes take a deep breath**

**Nothing here can save your world
Die Die**

**Nothing here can save your world
Die Die**

Nothing here can save yourself

Die Die Die

Save your world

**Kill yourself save the beast you're living on
I am dust and sand**
